

Staying Connected During Social Distancing – Virtual Event Solutions

Custom Engaging Videos

Videos are a great way to quickly engage employees in short spurts on key topics such as onboarding, “how to” videos, benefit overviews, enrollment, plan changes and other ongoing topics.

Whether you are looking for an animated, white board, PowerPoint or demonstration video, we provide end-to-end video support including project management, content, design, voiceover, hosting and reporting.

Key Benefits:

- Fully customized to your needs
- Supplements an in-person meeting
- On-demand, 24/7, from any device
- Can be hosted on a server, portal or microsite
- Can be accessed via a QR code, AR or a link
- Robust metrics and analytics

Your health and well-being, and the level of service and support we provide to you and your employees, continue to be our top priorities.

Now, more than ever, the ability to stay connected is paramount.

As the Coronavirus (COVID-19) and its impact continue to evolve, we remain focused on ensuring we are offering the latest solutions to help you and your employees stay connected and navigate challenging times.

Faced with cancelling in-person meetings, employee benefit fairs and supporting a remote workforce model practically overnight, companies are searching for alternative interactive communication solutions. Virtual meetings and videos can help employees stay connected while achieving positive results.

Conduent is ready to support you with affordable, customized solutions so you can keep working effectively and stay connected with employees without compromising progress. In fact, we have been supporting virtual event solutions for many of our clients for years. We are skilled experts in this area and are staffed to support all your business needs including, but not limited to, corporate initiatives, benefits and other employee engagement opportunities.

Custom Virtual Meetings

Our turn-key solution offers robust, interactive, online interactions in lieu of face-to-face meetings.

Virtual meetings ensure everybody gets the same information, from the same source, in the same context. That makes the virtual meeting a powerful tool to engage employees, potentially replacing in-person meetings and events – reaching your staff no matter where they are located, at any time.

Produced as live and/or on-demand, fully customized client-branded events deliver appealing, interactive and innovative forums that drive attendee participation and collaboration.

Key Benefits:

- End-to-end event management including content development, design, hosting, recording and reporting
- Intuitive presenter interface and interactive audience experience
- Optimized for mobile experience
- Accommodates large audiences (up to 1,000 live attendees with the option to include more)
- Powerful metrics and analytics
