

Complete Transparency Across Your Matters Client Portal Overview

Client Portal Advantages

- Transparency—obtain comprehensive view into all matters, metrics and costs
- Process optimization—our systems and personnel are designed and trained to help you optimize your eDiscovery processes and workflow
- Cost savings—proactively manage the cost of your active matters to save on legal expenses
 - Unified reporting metrics across your entire portfolio of legal and compliance matters handled by us
- Make apples-to-apples comparison of metrics across projects
- Understand total scope of engagements with us
- Centralized access point for clients to consume additional cross-platform offerings we're developing
- Customizable views through expanded administrative features

The Client Portal provides you with a single, centralized view into all reporting, visualizations and analytics across all of your legal and compliance matters with Conduent Legal and Compliance Solutions — whether you use OmniX™, Viewpoint™, Relativity or a combination of our platforms to manage your casework.

The Challenge

Whether with Conduent or another eDiscovery provider, clients demand one thing: a centralized view into all engagements so they can accurately track matters, metrics and expenses. While clients receive individual reporting by platform, reports are typically exclusive to each platform—with no single view across all casework, making decision-making across cases difficult.

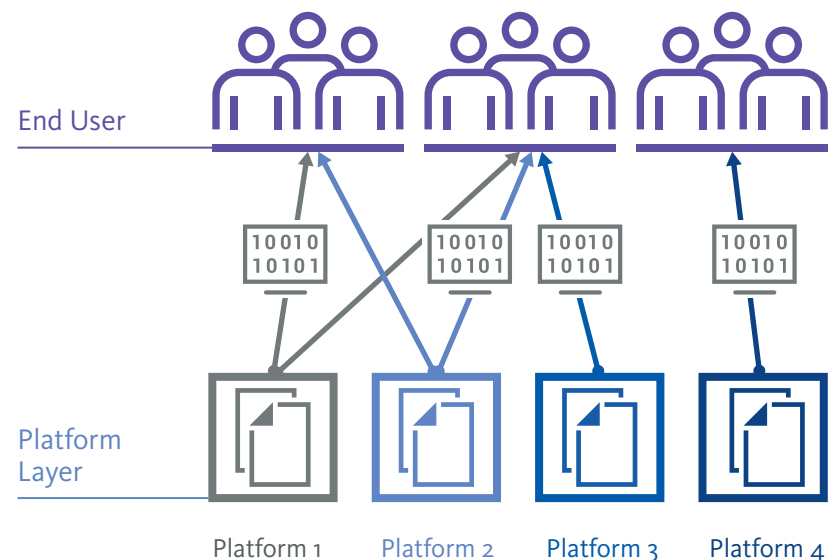

The Solution

Through our Client Portal, we offer transparency across projects, including integrated reporting and dashboard visualizations that aggregate information across all of your engagements with Conduent across all of our eDiscovery platforms: OmniX, Viewpoint and Relativity.

Features include:

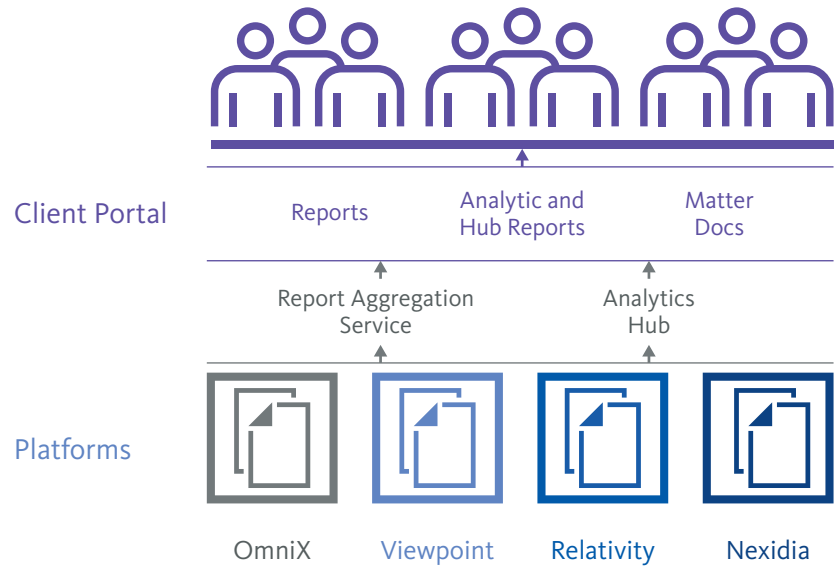

- Single point of contact for project documentation (review playbooks, matter specifications, etc.), helpdesk requests and platform documentation
- Access point and interface for the Analytics Hub, a cross-platform suite of descriptive and predictive analytics tool
- Robust self-service administration capabilities
- Access point for new and future cross-platform offerings

Traditional Platform Reporting Methods

The Client Portal: Unprecedented Transparency Across All of Your Cases
