

Justice Solutions

Conduent provides innovative solutions for your Court, enabling you to effectively manage changing legislation and constituent demand.

Core Competencies

We are dedicated to providing innovative service and enabling our customers to simplify the way work gets done. We work with more than 1,000 courts nationwide, providing a variety of justice solutions. We have over 40 years of experience working with governments around the world and with this experience we have developed the knowledge and resources to assist in optimizing competencies in every aspect of your day-to-day court operations – from simple to complex. We can assist you with reengineering a single workflow or process, or we can stand up an entire operation and do your labor-intensive tasks for you.

Conduent provides innovative solutions for your Court, enabling you to effectively manage changing legislation and constituent demand.

Our Commitment

We are committed to assisting our clients throughout the Justice and Public Safety sector in fulfilling their mandates. Our expertise is in technology, processes and solutions. In support of our Court clients, we offer solutions that support the delivery of equal justice under law.

We combine software, technology and services with components provided by our partners to create “best of breed” solutions that encompass end to end processes essential to the courts. Our expanded offerings include technology infrastructure support, case and jury management systems, violation processing, cash management, revenue collection, back office scanning/imaging and many other ancillary functions that courts require.

Our Differentiators

- 25+ years of successfully implementing Justice Solutions
- Innovative solutions, portfolio of existing and emerging technologies
- Ability to integrate complementary solutions and diverse functions
- Dedicated subject matter experts serving our court and jury customers
- Serving 1,000+ courts
- Long term relationships with 15,000+ government agencies and entities in all 50 states
- Project Management Institute (PMI) certified Project Managers (PMP)

Court Case Management Solutions

Courts need the ability to quickly and efficiently share and access data while meeting the information needs of the court. These demands call for sophisticated court management software using the latest technology. Our solutions simplify business processes, improve efficiency, and provide highly flexible applications to fit your needs. Our court case management systems will deliver solutions that will meet or exceed your Court's needs.

Jury Management Solutions

Every day, thousands of citizens participate on juries across the nation. To meet your needs, we provide kiosk, interactive web response and integrated voice response systems, print/mail, mobile device check in and empanelment, postcard summons, etc. We provide you with the most comprehensive end-to-end web based jury management solution available in the marketplace. With years of experience working with the courts, our subject matter experts used the most current standards to design our jury management system. Using our solution will dramatically improve productivity of your Court's operation, and improve the experience of your constituents when they are asked to serve as jurors.
