

# Our Knowledge Solutions can help you automate, integrate, and advance your knowledge programs to realize better outcomes than ever before.

## Our expertise

### Knowledge Connection™

Knowledge Connection is a complete education management system that supports standard, customized, and guided experiences through multiple devices and features to fit both structured and personalized learning needs.

### Learning administration services

We deliver the resources to track, manage, and deliver tactical learning support services more accountably and efficiently. We provide administration, logistics and learner care to ensure employees receive instruction in a timely and effective manner.

### Content design and curation

Course curriculum design and development tailored to a clients' specific business needs, ranging from IT training to leadership development to sales training, in any delivery modality across all industries.

### Instructor facilitation

We provide expert instructors, trainers, and facilitators to implement your initiatives, as well as logistics coordinators and trained schedulers to make your training program run smoothly and efficiently.

### Automate

Improve your agility to share knowledge in the office and around the world by automating your manual processes. Our cloud based platform allows you to upskill, reskill and train your staff.

Conduent provides an unsurpassed level of data integrity with workflow management tools that ensure best practices for clean, centralized data.

### Integrate

Power your instruction with a modular framework that adapts to any initiative. Quickly customize knowledge assets and select the best delivery method to ensure your team's success.

We support multi-model training initiatives with a micro learning strategy and our mobile-first environment which incorporates strong video capabilities.

### Advance

Drive unprecedented program success and improve outcomes by increasing the speed of adoption, implementation and sustainability of your knowledge programs.

Our knowledge solutions remove obstacles like inaccessible data and inefficient processes so you can focus on improving lives through better, more affordable, and more accessible healthcare.
