

# Midas Health Analytics Solutions

## Care Performance Transformation

**Our Goal:** To contribute to achieving your strategic goals and improving the health and outcomes of patients.

Your clinical and operational effectiveness is more important than ever before. As a healthcare leader, you are bombarded by decisions every day, ranging from day-to-day operations to emerging clinical procedures/medical practices, new lines of business, reimbursement contraction pressures, and looming regulatory requirements. Our team of experts will ensure that you measure what matters and outperform on your objectives.

We are in the midst of the most exciting yet challenging time that healthcare has ever undergone. We understand that successful transformation to value-based care requires action, not just measurement. To that end, we deliver customized assistance to clients in improving their **Care Performance** to achieve the clinical, operational, and financial targets necessary for success in the world of value-based care.

Whether you are a first mover in Medicare Shared Savings, a commercial ACO, or just beginning to test the waters, we can assist you in implementing the necessary tactics that align with your overall strategy. With shrinking reimbursements, efficiencies are of paramount importance and our experts stand prepared to deliver best-in-class process improvements.

Based upon the solid foundation of hard data provided by Midas Solutions, we help your organization make decisions that improve efficiency, quality, and clinical outcomes.

- Our team of clinical and operational experts can guide you through action planning and process improvement implementation with the ability to bring best-in-class solutions from our vast client base.
- In addition to customized consulting, we offer the most highly sought after programs covering topics such as readmission reduction and risk management to propel your organization forward.
- Assessment of data efficacy, reporting, and processes to streamline across your organization's continuum.
- Evaluate change readiness and design plan of action to engage clinicians and patients in improving outcomes and successful transition to value based care
- Review and assess Midas Solutions clinical outcomes with particular focus on pay for performance and mandated reporting utilizing analytics and benchmarking.

“Any intelligent fool can make things bigger, more complex, and more violent. It takes a touch of genius – and a lot of courage – to move in the opposite direction.”

– E. F. Schumacher

### **About Conduent**

Conduent is the world’s largest provider of diversified business process services with leading capabilities in transaction processing, automation, analytics and constituent experience. We work with both government and commercial customers in assisting them to deliver quality services to the people they serve.

We manage interactions with patients and the insured for a significant portion of the U.S. healthcare industry. We’re the customer interface for large segments of the technology industry. And, we’re the operational and processing partner of choice for public transportation systems around the world.

Whether it’s digital payments, claims processing, benefit administration, automated tolling, customer care or distributed learning – Conduent manages and modernizes these interactions to create value for both our clients and their constituents.
